

Prime Recycled Pellets & rCompounds for Consumer Goods Applications

RSH Product Example	Example of Application	Raw Material	Properties
ABS rCompound 2010	cover electronic products	PIR	high flowability, high impact strength
LDPE Recycled Pellets 2070 i	furniture feets	PIR	extrusion & injection molding grade, also in transparent
HDPE Recycled Pellets 5016 B/2	watering cans	PIR / PCR (<49/>51)	blow molding grade
HDPE Recycled Pellets 5080 i	cartridges	PIR, PCR or PIR / PCR	injection molding grade, also in transparent
PP Recycled Pellets 1100 i	furniture accessories, DVD cases	PIR	injection molding grade, also in transparent
PP Recycled Pellets 1300 i	highlighters, caps, flower planters	PIR	injection molding grade, also with mineral reinforcement, also in whitish or transparent
PP Recycled Pellets 1500 i	shopping baskets, buckets	PIR	injection molding grade, also in whitish and transparent
PPH Recycled Pellets 1350 i +	highlighter, glue stick	PIR	injection molding grade, improved surface, transparent
PPC rCompound 1035 B	furniture edges	PIR	low flowability, good impact strength
PPC rCompound 4010 MF 10	cases electronic products	PIR	high flowability, very high impact strength

This overview shows only a small part of our portfolio with exemplary properties. Please let us know your requirements - we will be pleased to offer you further products from our portfolio or develop individual solutions for your needs. We will be delighted to advise you.

Excellence in Recycling

Durability and improved surfaces

Possibility of Certification

clean PIR & PCR raw materials
